Commissioner for Patents

The previously printed specification in the PGPUB US 20050287820 A1 was an incorrect document since it was the prior reference document WO 01/53889 A1 that was submitted with the IDS of the application on 12/20/2004. After noting the discrepancies between the specification document and with the 371 document and further consulting with applicant's representative, David Longo, the Specification have now been corrected in the application files with the documents submitted with the 371 on 12/20/2004 being corrected so that it is now identified as the specification based upon the PCT/SE03/01004.

/Yogendra N Gupta/
Supervisory Patent Examiner, Art Unit 1791
